

Stretch-Grip™ Pliers

Ergonomic scissor-grip for maximum control

FEATURES & BENEFITS

- A unique inside scissor-grip allows controlled pressure to be applied.
- Offers a better gripping force, reducing the chances of slipping from the hand, or injury.
- Flexible thumb catch for precise opening and closing.
- Rugged tool is made of drop-forged, heat-treated carbon steel with micro-nickel finish.
- All-weather nonslip handle grips are covered with soft urethane foam.

DESIGN & MATERIALS

- Full USA patent protection.
- Additional IP available.
- Additional models and animation available.
